

RELJEFI V UTORI

Moderne tehnologije omogućuju nam izradu dovršenih V utora, koji još bolje potiču spajanje poprečnih i uspravnih furnirskih listova. Budi hrabar i pusti divljinu u svoj dom.

A close-up photograph of a wooden cabinet corner. The wood has a light, natural grain. A V-shaped groove is cut into the corner. A dotted white line points from the text 'reljef s V-utorom' to this groove. Another dotted white line forms a circle around the top edge of the corner. In the lower right, a dark grey circle contains the text 'SAVRŠENOST DETALJA'. At the bottom, a metal handle is partially visible.
